SUMMARY

Highly skilled and motivated software developer with a passion for building innovative solutions. Experienced at least 2 years in full-stack development and proficient in C# , Python, Asp.net core , ReactJS, MSSQL and Robotic Process Automation (RPA). Seeking a challenging software development role where I can leverage my expertise to contribute to the creation of cutting-edge software products and solutions.

STRENGTHS AND EXPERTISE

Programming Languages : C# , Python , SQL , JavaScript , TypeScript , Html , Css

Technologies : Asp.net (api) , ReactJS , NodeJS , Angular , RPA , Robot framework , Tailwind , Github

DB : MSSQL

Soft skill : Problem solving , Adaptability , Emotional Intelligence

---

EXPERIENCE

Daikin Compressor Industries Ltd.   **Apr 2022 - Present**
System Development

- Design, development and implementation of applications to enhance business process workflow.
- Collaborate with other departments to understand their needs and develop the system as user requirements.
- Coordinate with implementer for maintain and support users to solve problem in ERP.

Accomplishments:

- **E-Kanban System :** control wip stock production line and automatic part drawdown system.
- **Training Record System :** website of training of employees in the company.
- **Core compentcy System :** employee performance assessment.
- **Supplier Car Control System :** control the access of delivery vehicles in the company.
- **QC Sampling System** : control hold and unhold part material.

Bluewind Solution Co., Ltd.   **Nov 2020 - Feb 2021**
Full Stack Devloper (Intership)
- Full stack : Backend(ASP.NET) and Frontend(Bootstrap).
- Develop various web-based ERP systems.
- Develop various type of API services.
- Database Design.
- Implement / Maintenance our partner's enterprise systems.
- Support to modify and improve modules follow requirement.

Freelance Programmer   **Freelance Programmer**   Nov 2019 - Jan 2020
Automatic Watering System (Timer 8 Ch)
- Microcontroller timer 8 ch/6 program Project.
- Control turning on-off the device at a specified time.
- Make a login page(LCD) to access the program.
- Use EEPROM to store data.
- Use arduino tool on System of project.
- Wrote manual program.

EDUCATION

Suranaree University of Technology
Computer Engineering | 2017 - expected July 2021
- Bachelor of Engineering (Computer Engineering)

Darasamunt Aranyaprathet School
Sciences and Mathematics Program | 2014 - 2016

PROJECT

Senior project for Rover Network Control System Design
stack : flutter , arduino microcontrollers , esp now

Project E-Commerce e-sport shop
stack : python (django) , bootstrrap , mysql

Project Website PortFolio

stack : react , tailwind css , vercel
https://newphotodev-portfolio.vercel.app/

EXTRACURRICULAR ACTIVITIES

Basic UiPath
SoftBank

Advanced React JS (ขั้นสูง)
สถาบัน ไอทีจีเนียส เอ็นจิเนียริ่ง

LANGUAGE
Thai - Native
English - (intermediate)
